

List of Vendors/Suppliers for raw material related to AYUSH-64

Ministry of AYUSH has launched the nationwide distribution campaign for poly-herbal formulation of AYUSH64. Scientists have found that AYUSH 64 is useful in the treatment of asymptomatic, mild & moderate COVID19 infection as an adjunct to standard care.

AYUSH-64 is an Ayurveda formulation, which was developed by the Central Council for in Ayurvedic Sciences (CCRAS), the apex body for research in Ayurveda under the Ministry of AYUSH, for management of Malaria. This drug was re-purposed as the ingredients showed notable antiviral, immune-modulator and antipyretic properties.

The Ministry of AYUSH-Council of Scientific and Industrial Research (CSIR) collaboration has recently completed a robust multi-centre clinical trial to evaluate the safety and efficacy of AYUSH 64 in the management of mild to moderate COVID-19 patients.

AYUSH-64 is recommended in National Clinical Management Protocol based on Ayurveda and Yoga which is vetted by National Task Force on COVID Management of ICMR and Guidelines for Ayurveda Practitioners for COVID-19 Patients in Home Isolation.
