

Pharmacognostic Study of *Bhumyamalaki-I* *Phyllanthus fraternus* Webst

M.B. Yelne¹, R.D. Pataskar² and P.C. Sharma³

Received on 28th Nov., 1991

Bhumyamalaki (Phyllanthus fraternus Webst.) is an important plant drug of Ayurveda. The drug consisting of whole plant is considered to be quite effective in chronic diseases of liver and infective hepatitis. The present communication deals with detailed pharmacognosy of root, stem and leaf with qualitative and quantitative values.
