

## Novel Medicinal uses of a Few Plants used by Korku Tribe of Melghat in Amravati Distt. Maharashtra State

P.D. Badhe<sup>1</sup> and V.K. Pande<sup>2</sup>

Received on 4th June, 1993

*A few medicinal plants of Melghat have been reported with their traditional uses by Korku tribe and supplemented with phytochemical data where ever available. A systematic screening together with phytochemical and pharmacological trials of these crude drugs (administered by Korku tribe) may prove their rationality, usefulness and importance to the modern world.*
