

SOME IMPORTANT AYURVEDIC MEDICINAL PLANTS OF BUNDELKHAND (JHANSI DIVISION)

R.S. Dixit,¹ S.N. Pandey² and J.P. Jain³

Received on 4.6.1993

The different forest ranges of Bundelkhand tract falling under Jhansi and Lalitpur forest divisions have been surveyed during the different periods in various seasons. Innumerable medicinal plants have been reported from the Bundelkhand area but 59 most commonly used in Ayurveda system of medicine have been described in this paper giving their local names, botanical description, parts used, action and their uses.
