

## **ANALYSIS OF SOME SIDDHA MEDICINES USED FOR KAMALA**

**A. Saraswathy, S. Joy and M. Girija Rani**

(Received on 20 - 6 - 2000)

*Thirteen compound drugs are mentioned in the Siddha formulary of India for the treatment of Māncal Kamalai (jaundice) of which, Talicatic curanam and Venpucani lekiyam, were prepared on a laboratory scale and subjected to quality control analysis. Chemical data and HPTLC profile of these hepatoprotective medicines presented will be useful in assessing the quality of these drugs.*
