

Research Methodology in Indigenous Drugs

Venugopal Rao. S¹

Working hard at staying young, looking good and living for ever, chances are that one is already on herbal high. This green wave will not only continue gain momentum, it will have in all probability reach the shore where it will have powerful impact. Hence the methodology of research and evaluation of Traditional medicine should guarantee the safety and efficacy of herbal medicines and traditional procedure based therapies. On the other hand, they should not become the obstacles to the application and development. There are six aspects which one has to deal with when taking into account of a drug which is of indigenous source.

1. Research Officer (Pharma'.) Central Research Institute (Ay), Calcutta.

This paper was presented in the Seminar on the Role of Good Manufacturing Practices in the Development of ISM Drugs held on 23rd and 24th April at CRI (Ay.) Kolkata.
