## ABOUT THE CME PROGRAM

*Two-Days Subject Speciality CME Program on “Dermatological Diseases & Their Management through Ayurveda” for private Ayurveda practitioners.*

The programme is sponsored by the Ministry of Ayush, Government of India, and coordinated by Rashtriya Ayurveda Vidyapeeth (RAV), New Delhi. The CME is scheduled to be held on 24<sup>th</sup> and 25<sup>th</sup> October 2026 at the Conference Hall, Regional Ayurveda Research Institute, Pune, under the aegis of Central Council for Research in Ayurvedic Sciences (CCRAS), New Delhi) on Two-Days Subject Speciality Continuing Medical Education (CME) Programme on “Dermatological Diseases & Their Management through Ayurveda” for private Ayurveda practitioners.

The programme aims to provide an academic platform for private practitioners to enhance their knowledge and clinical understanding of various dermatological disorders and their management through Ayurveda. The CME will facilitate interaction between experienced Ayurveda experts and practicing physicians, with emphasis on classical Ayurvedic concepts, clinical approaches, treatment principles, and contemporary perspectives in the management of skin disorders. The programme will also provide an opportunity for participants to exchange clinical experiences, discuss practical challenges, and update their professional knowledge in the specialized field of Ayurveda Dermatology. The CME is intended exclusively for private Ayurveda practitioners, with limited participation, thereby facilitating meaningful academic interaction and focused learning.

## ABOUT THE INSTITUTION

Regional Ayurveda Research Institute, Pune is a leading research center under the aegis of Central Council for Research in Ayurvedic Sciences, Ministry of AYUSH, Government of India. It was established in May 1961 by the Indian Government, and the foundation stone was laid down on 14<sup>th</sup> November 1964. The institute has 19.5 acres of land mainly used for the cultivation and conservation of Ayurvedic medicinal plants. The institute maintains more than 400 medicinal plants, including 22 Rare, Endangered, and Threatened (RET) plant species, and two Miyawaki forests (Aushadha aranyam).

CCRAS, New Delhi has assigned the mandate which are some focused areas like Basic and Fundamental Research in Ayurveda, In-vitro Pharmacology testing, Proteomics and metabolomics and medicinal plant research and other activities like demonstrative medicinal plant garden, pharmacognosy research, plant tissue culture, molecular biology research, any other assignment of national importance and related to R&D in Ayurveda. Additionally, it houses 16,000 herbarium sheets and 500 crude drug samples in the museum for reference. Apart from this, the institute has botany, pharmacognosy, in-vitro pharmacology, animal histopathology, genotoxicity, molecular biology, plant tissue culture, biochemistry laboratories, and animal house facility, equipped with high-end instrumentation to carry out various research activities. The institute is accredited by NABL for the authentication of medicinal plant and pharmacognosy work in accordance with ISO/IEC 17025:2017 standards. BIS license of Quality Management Systems Certification (IS/ISO 9001:2015) has been granted to the institute.
